

# BIF NAKED

Bif Naked, a dynamic force in the realms of music, TV, film, and dance, stands as a celebrated and notorious performer. Her journey is nothing short of a whirlwind—a gripping tale of resilience, rebellion, and relentless advocacy. Orphaned in India, she found liberation through punk rock, and her spirit has only intensified through the trials that followed.

Empowered by the triumph over breast cancer, kidney failure, heart surgery, divorce, and the challenges of navigating the cutthroat Entertainment Industry as a Woman for a remarkable twenty-five years, Bif emerges as a true icon. Her journey is marked by platinum-selling records, best-selling books, and a fervent entrepreneurial spirit.

Bif's dynamism extends beyond her own success; she dedicates herself to guiding and inspiring others. As a mentor and manager, she shares her wisdom with fellow artists, leaving an indelible impact on the creative landscape. A relentless advocate for animal rights and human rights, Bif is an unstoppable force, defying all obstacles in her path.

In a world where conformity is the norm, Bif Naked has transcended expectations, emerging as one of the 21st century's most unique, recognizable, and beloved icons—a testament to the power of resilience, passion, and unwavering commitment.

In June 2024 Bif releases her first studio album in 15 years titled *Champion*. "I can think of no better gift that I could give to everyone to help me celebrate my birthday". June 15th was a response to the overwhelming feelings developed as the record started to take shape, and with the final mixes, graphics, mastering including the new hidden tracks and EDM remixes it took on a persona of its own.... "THE CHAMPION."
